EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen Schaefer (Reg. No. 37, 927) on July 18, 2003.

2. The application has been amended as follows:

24. (Amend) The method of claim 23 wherein the apparatus further comprises a temperature sensor attached [at the same edge of] the wafer [as] at the same edge of the wafer to which the electrical connectors are attached and the temperature sense also being electrically connected to a temperature controller.

3. The following is an examiner's statement of reasons for allowance:

Claims 23-32 and 73-81 are allowable in light of applicant's amendment and arguments, and the examiner's amendment. The closest prior art in the record are Kajiyama *et al.*, (US Patent No.6,428,749, filed on March 16, 2000) and Peterson *et al.*, (Journal of Heat Transfer, 115, 751-756, 1993). Kajiyama *et al.*, do not disclose or suggest attaching a power source to connectors on a semiconducting wafer so that a continuous temperature gradient is formed on a surface of the wafer as recited in claim 23 (see applicant's remarks, page 6, fourth paragraph bridging to page 7, first paragraph). Peterson *et al.*, do not teach a stratum having a thermal conductivity that is significantly lower than that of the surface having a temperature gradient as recited in claim 73

Art Unit: 1634

and a stratum comprising materials selected from the group consisting of glass, silicon and plastic as recited in claim 78. These prior art either alone or in combination with the other art in the record does not teach or reasonably suggest a method of generating a temperature gradient which comprise all limitations recited in claims 23, 73, and 78.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notices published in the Official Gazette, 1096 OG 30 (November 15, 1988), 1156 OG 61 (November 16, 1993), and 1157 OG 94 (December 28, 1993)(See 37 CAR § 1.6(d)). The CM Fax Center number is either (703) 308-4242 or (703)305-3014.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank Lu, Ph.D., whose telephone number is (703) 305-1270. The examiner can normally be reached on Monday-Friday from 9 A.M. to 5 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, W. Gary Jones, can be reached on (703) 308-1152.
